

EVOCARDIO

Renegade Ultra Cycle AB050

A USEFULL MACHINE FOR THE MOST DEMANDING ATHLETES

A training on the Renegade Ultra Cycle AB050 is a full body workout that builds muscle and improves cardiovascular endurance. The resistance increases as you pedal faster, while also keeping you cool. The Ultra Cycle AB050, a great look and feel, is a fantastic bike for everyone, from beginners to professional athletes.

The multi-grip handlebar allows all users to find a comfortable hand position. The smooth, natural, unrestricted airflow/magnetic resistance (12 levels) provided by the double heavy-duty 56 cm steel fan with cross-connected steel blades, allows for a huge range of resistance options.

The ergonomically moulded PU seat guarantees extra comfort and durability while the non-slip adjustable footrests provide more stability. With the infinitely adjustable quick-release handles, you can easily adjust the saddle and the multi-grip handlebar to your ideal set-up. To move your bike, use the knurled handles at the back to easily pick up the bike.

The large LCD screen displays all training data in easy-to-read format. The power output is displayed in watts, giving you an accurate measurement to track your progress and improve your performance on the Renegade Ultra Bike.

Designed to withstand and be fully equipped, the ReNegaDe Ultra Cycle AB050 is a usefull machine for even the most demanding of gyms!
